## Pool Render Details

### Flow With Water

A finish to complement the endless flow of water. Seamless with no interrupting grout lines, the eyes gazes over a continuous speckle of glimmering glass beads, Mother of Pearl and colourful stones.

### Up to Pool Chemistry

Unlike field-mixed or traditional pool plasters, Crystal Topping was formulated specifically for the harsh environment of chlorinated pools with special admixtures and components for a tough yet attractive finish.

### Tough In and Out of the Water

Unlike competing pool plasters, Crystal Topping is also suitable for use outside the water. Infused with glittering aggregates such as coloured glass beads, colored crushed glass and Mother of Pearl to produced a unique and stunning exposed aggregate flooring.

### The Right Stuff, Fast and Easy

No resins or coatings that might be sensitive to moisture penetration, Crystal Topping is based on a cement-based dry mortar binder modified with advanced dry polymers and special additives that is just as fine in continuously damp environments as it is in dry environments. Pre-packaged with decorative aggregates, only water is added to the mix and Plastered directly on a pool's inner concrete shell. Crystal Topping contains colorful aggregates such as glass and Mother of Pearl for maximum visual impact.
