About Us: Crafting Beauty in Concrete and Bricks Showroom!

At Good Hand Stones and Concrete Flooring LLC, we are passionate about transforming ordinary spaces into extraordinary masterpieces. Our showroom is your gateway to a world where creativity meets craftsmanship, and where your imagination comes to life through the versatility of decorative concrete and bricks.

Established with a vision to redefine the landscape of architectural design, we pride ourselves on delivering excellence through our unparalleled products. Good Hand SCF has been a pioneer in the industry for 10 years. We are more than just manufacturers; we are creators, innovators, and collaborators, dedicated to delivering excellence in every project.

Step into our showroom and immerse yourself in a diverse range of decorative concrete and bricks options. From sleek and modern designs to rustic and traditional aesthetics, we offer an extensive selection to suit every style and preference. Whether you're looking to enhance your home, office, outdoor area, or commercial space, we have the perfect solution for you.

What sets us apart is our relentless pursuit of perfection. Each of our concrete and brick creations is meticulously crafted by skilled artisans who pour their expertise and passion into every detail. From intricate patterns to bold textures, our products exude character and charm, breathing life into any environment they grace.

Moreover, sustainability lies at the heart of everything we do. We are committed to eco-friendly practices, using responsibly sourced materials and employing innovative techniques to minimize our environmental footprint. By prioritizing sustainability, we not only protect the planet but also ensure that our creations endure for generations to come.

Our Products:

Explore our comprehensive range of products, including:

- Exposed Aggregate Concrete
- Stamped Concrete
- Bricks
- Micro Topping
- Pool Renders
- Stones
- Tiles
- Sanitary Ware
- And much more!

Visit Us Today:

Experience the endless possibilities of decorative concrete and bricks firsthand at Good Hand SCF Showroom. Whether you're a homeowner, architect, designer, or contractor, We invite you to unleash your creativity and explore the limitless potential of our Products.

Transform your space with Good Hand SCF—where innovation meets imagination, and ordinary becomes extraordinary. We look forward to welcoming you soon!

Technical Data Sheet

Stamped Concrete Section

Stamped Concrete

Material Submittal & Details

- Polythene Sheet
- Steel Mesh
- Ready Mix Concrete
- Shuttering
- Color Hardener
- Release
- Sealer

Material	Physical Specifications	Physical Specifications
Polythene Sheet	Solid	1000 Gauge
Steel Mesh	Solid	6 mm Diameter
Ready Mix Concrete	Solid	30 N, Screed SRC + Fiber
Shuttering	Solid	9,12,18 mm
Color Hardener	Powder	See Below
Release	Powder	See Below
Sealer	Liquid	See Below

Technical Details

Color Hardener

Color Hardener is manufactured with the finest UV resistant pigments and premium aggregates. Color Hardener is designed to work with imprinting tools to produce clear, sharp impressions that enhance the finished appearance of any hard landscape. Color Hardener is ready-to-use, powdered dry-shake hardener used to add color into the surface of freshly placed concrete. It produces a hard, long wearing, abrasion resistant surface.

Release Agent

A release agent is a chemical used to prevent other materials from bonding to surfaces. It can provide a solution in processes involving mold release, die-cast release, plastic release, adhesive release, tire and web release.

Release agents provide the critical barrier between a molding surface and the substrate, facilitating separation of the cured part from the mould. Without such a barrier in place the substrate would become fused to the mould surface, resulting in difficult cleanup and dramatic loss in production efficiency. Even when a release agent is used, factors such as irregular applications or improper release agent choice will have a dramatic effect on the quality and consistency of your finished product.

Sealer

- You've finally installed the decorative concrete masterpiece of your dreams. Maybe it's a pattern-stamped pool deck or patio, an interlocking paver driveway, an acid-stained floor, or an exposed aggregate walkway.
- Protecting and properly maintaining that concrete will keep it looking spectacular for many years to come while extending its service life. And even if the surface begins to show wear after years of exposure to traffic and the environment, you can often restore its original beauty with special cleaning, stain removal, and polishing products.

Method of Statement

- Checking the surface preparation and the site for our work.
- Road base application with compaction, if required.
- Shuttering work with wooden plywood, as per design.
- Application of bonding agent if required.
- The application of welded steel mesh.
- Application of Screed as per mix design, usually 30N, 10mm aggregate with polypropylene fiber 700 gm per cubic mtr.
- Wait until the bleeding water of the concrete leaves from the concrete surface.
- Start the hardener dry shake as per approved color
- Trowel the color with a magnesium trowel, apply another coat of dry shake, and then trowel it with an aluminum trowel.
- Spray the release powder as it is on the top of the color surface.
- Stamping by approved stamp.
- Making the control joint approximately after every 3x3mtr or as per the design requirement .
- Application of Sealer.

Storage & Handling Requirements

- Store and handle materials in accordance with manufacturer's instructions.
- Keep materials in the manufacturer's original, unopened containers and packaging until application.
- Store materials in a clean, dry area indoors.
- Store materials out of direct sunlight.
- Keep materials from freezing.
- Protect materials during storage, handling, and application to prevent contamination or damage.
